keypoint 76 Monsignor Carlo Caffarra, writes a letter to Sister Lucia asking for her prayers. Before he passed away in 2017, he proceeded to make her reply with her signature known to the public. It had taken Caffarra by surprise. Monsignor (later Cardinal) Caffarra became the new head of the **new Pontifical Institute for studies on marriage and the family** in 1980; remember his name when the topic of the new nuclear family definition arises, 30 years later. She wrote him, "The final battle between the Lord and the reign of Satan will be about marriage and the family." Sherman Oaks Mega Mall opens, a suburb of Los Angeles; a new recreation-shopping mall for Middle America in 1980 and the road to credit card debt on an astronomical level begins.

In 1981, Cardinal Joseph Ratzinger became Secretary of the Congregation for the Doctrine of the Faith.

keypoint 79 Nov. 28, 1981: Our Lady first appears to Alphonsine Mumureke in Kibeho, Rwanda, telling Alphonsine she is the Mother of the Word; in subsequent months reappeared. Ryszard Kuklinski (r), one of the first in Poland to use a cell phone, tips off the Allies; a secret meeting was arranged in Rome between CIA Director William Casey and Pope John Paul II but acting as translator was Rev. Janusz Bolonek, who was a Communist agent in the Vatican (for 20 years) codename "Lamos." A round the clock manhunt is then conducted behind the Iron Curtain for Kuklinski; yet Kuklinski escapes on Nov. 7. The Kremlin lets Gen. Jaruzelski, Polish Prime Minister, Minister of Defense, and first secretary of the Polish United Worker's Party, issue martial law and crush Solidarity. The U.S. Supreme Court rules that religious, cultural origins and history of Christmas do not violate the Constitution when studied in the classrooms in Public Schools, *Stone vs. Graham*, 449 U.S. 39, 42, 1981.

keypoint 81 May 13, 1982: Pope John Paul attempts a consecration of the world without

bishops of the world. By 1982, 73% of the world was Communist. CD's are unveiled.

keypoint 82 Aug. 15, 1982: Out of one of the poorest high schools in Rwanda visionary Alphonsine is told by the Lady to pray the Rosary, and also reveals she was shown massive death with skulls cut in half and burning fires throughout the land that made the 15-year-old cry with tears; she was foretold the Rwandan genocide of 1994 without mentioning the year, but few believed her. The Blessed Virgin Mary appeared to others yet, only 3 were worthy of approval in 2001. This is the only Marian Apparition on the continent of Africa recognized by the Holy See, but not at the time.

keypoint 83 President Reagan announced the Strategic Defense Initiative, a new laser-armed antiballistic missile system from both ground and from outer space.

Oct. 13, 1983 Ameritech initiates cellular radio telephones.

keypoint 88 Two months after re-establishing diplomatic relations with the United States (broken since 1867), on March 25, 1984, before 250,000 people, Pope John Paul II publicly consecrates the "whole world" to the Immaculate Heart of Mary without participation of bishops, as requested. Quietly, Bishop Paul M. Hnilica made the Consecration of Russia to the Immaculate Heart of Mary at St. Michael's Church in the Kremlin and then said a secret mass at a church in Moscow called the "Assumption of Our Lady."

keypoint 89 *Avvenire*, March 27, edition, Catholic bishops' newspaper, reports Pope also performed a silent prayer before 10,000 people on March 25 inside St. Peter, requesting Our Lady to bless "those peoples for whom You Yourself are awaiting our act of consecration." Public use of internet on a limited basis starts. Apple introduces the Macintosh in 1984.

keypoint 91 May 13, 1984, huge explosion in Severomorsk (Sever-o-mor-ski) destroyed 80% of Russia's missiles reducing the USSR from superpower. The world did not know the extent. The world comes to the Los Angeles Summer Olympics July-August in 1984, the last and only summer Olympics that did not go into horrendous debt.

keypoint 92 Nov. 11, 1984: *Jesus* magazine publishes an interview with Cardinal Ratzinger entitled "Here is Why the Faith is in Crisis." Published with the cardinal's permission, it is revealed he had read the Third Secret and it quotes him as stating it concerns dangers to the faith. He also revealed that "the things contained in this 'Third Secret' correspond to what has been said again and again in many other Marian apparitions, first of all that of Fatima...."

keypoint 93 Dec. 13, 1984: Russia's largest ammunition base in Siberia explodes. U.S. Supreme Court rules that American public schools can call Christmas Holidays with the word Christmas without being unconstitutional, *Lynch vs. Donnelly*, 465, U.S. 668, 676, 1984, but the Supreme Court also established what came to be known as the *reindeer rule*, cities may set up nativity scenes and other religious scenes in public parks & public lands without offending the Constitution if sufficient secular objects are also displayed. *Lynch*, 465, U.S. at 679.

keypoint 95 A year later in 1986, St. Michael the Archangel sent an angelic emissary to ask Andrew Wingate if he would like to perform a service for Jesus and his mother, Our Lady. Wingate answered yes. And so began his life as "The Trumpeter" to announce to the world future messages. First e-book developed by Franklin Co. in 1986.

keypoint 96 March 1986 future Pope Francis I travels to Augsburg, Germany, where he is deeply moved by the painting of Mary, the Blessed Mother by a painter from the 1700s depicted untying the knots of a ribbon held out to her by an angel, while another angel is receiving another ribbon from her with no knots. This man of action never finished his "doctoral thesis" reason for going to Germany, but on his return to Argentina brought the whole story of the "untier of knots." The knots are all that represent sins, the complexities and complications of life. And, Mary is the one who helps to untie them.

keypoint 97 April 26, 1986, a scientist in present-day Ukraine unlocks the safety features of the Chernobyl nuclear power plant and an explosion occurs when the Fail Safe procedure fails. The fallout is 400 times more radioactive than Hiroshima and the consequent fires lasted 10 days; a giant concrete sarcophagus enclosure was built in 206 days locking in 200 tons of radioactive corium, 30 tons of highly contaminated dust and some 16 tons of uranium and plutonium. Chernobyl translated into English is Wormwood. In the world of prophecy, Wormwood is mentioned in chapter 8 verse 11 of Revelation, which is connected to the Biblical Third Trumpet written about 2000 years ago.

Gruner's permission to reside in another diocese and make him illegitimate and try to kick him out of the priesthood. The letter was discovered years later in the files of the Archbishop of Toronto, which ordered the bishop that he was not to disclose that it all came from Agostoni.

keypoint 101 Nov. 9, 1989: The Berlin Wall comes down; East German authorities hand down news that the borders would be loosened but, read by reporters who mistook the change as open borders. Crowds of E. Germans head for the wall, outnumbered, guards open the barriers and thousands upon thousands begin streaming through. Hollywood star David Hasselhoff, of *Night Rider* and *Baywatch*, in his black jacket with twinkiling lights suspended from a crane above the crowd New Year's Eve '89 sings the European hit, "Freedom". Digital photography developed. Czechoslovakia, Romania, Bulgaria and Albania hit by revolutions.

keypoint 102 May 13, 1990: Freedom of religion was officially allowed in Russia. Rev. Stefano Gobbi is told by our Blessed Mother this message: "Humanity has not accepted my motherly request to return to the Lord along the road of conversion....Satan has been the uncontested dominator of the events of this century...spreading far and wide division and hatred, immorality and wickedness and legitimizing divorce, abortion, obscenity, homosexuality and recourse to any and all means of obstructing life." WORLD HISTORY AXIOM: unrealized by many, the decade of the 90s is the start of a xeno-phobic-anti-Western-Culture-amorphous-Muslim war; initiated by cells of bin-Laden, extension carried by fanatical Islamo-Nazi terrorists of every age.

keypoint 103 Oct. 13, 1990: President Mikhial Gorbachev, the first baptized Christian President, although still Communist, receives the Nobel Peace Prize. U.S. National debt reaches \$3.2 trillion. SR-71 spy plane costs \$200,000/hour to fly; max ceiling 101,400 ft.

37% reduction. Even though article is from

May 2004, reference is perhaps sounding of the Fourth Trumpet.

keypoint 104 Invasion by Saddam's military of Kuwait results in war, and he is then ousted from Kuwait in 1991 but not before his troops set fire to the oilfields. **The skies and earth were darkened.** Saddam in **Persian means destroyer.** And, out of the abyss came locusts with power of scorpions. Coincidentally, **Apollyon in Greek translates to the destroyer.** It is in the Bible. The Fifth Trumpet is announced. In 1991, Cardinal Sodano becomes Vatican Secretary of State.

keypoint 105 Oct. 13, 1991: First pilgrims from the Soviet Union are allowed to visit Fatima and it was carried live on 150 stations and some 300 radio stations. keypoint 106 The Fatima Center holds in 1992 conferences in Fatima; 65 bishops attend. Msgr. Guerra holds his own conference and at the conference, Bro. Francois of France denounces some fake letters attributed to Sister Lucia. No one denies the accusation. Jean Polly invents "surfing the web."

keypoint 107 A heavily edited volume of Father Alonso's documentation on Fatima is published in 1992, but 23 other volumes are under lock and key.

keypoint 108 Balamand Statement of 1993 makes it a crime for the Roman Catholic Church to preach in Russia. There are about 500,000 Roman Catholics in a nation of about 144 million Russians. First terrorist attack on World Trade Center, an explosion rocks the parking garage, Feb. 26, 1993. First Pentium processor released equivalent to 3 million transistors.

keypoint 109 Nov. 18, 1993: U.S. government permits sale of an \$8 million supercomputer to Red China; it is capable of performing 958 million calculations per second.

keypoint 110 Oct. 4, 1994: Export ban to China of U.S. high-technology, including satellite

launch equipment, ended. China conducts underground nuke explosion 3 days later.

keypoint 111 Feb. 2, 1995: In the coastal town of Civitavecchia, known as the Port of Rome and very famous in WW II, a small statue of the Blessed Virgin Mary begins to weep tears of blood, first seen by 5-year-old Jessica Gregori. Monsignor Grillo was given a report from Fr Martin the parish priest, but Grillo threw it into a waste basket and told the priest to destroy the statue, which was 16 inches high. Not destroyed, Monsignor Grillo then confiscated the statue and hid it in his closet; it continued to weep blood in front of eyewitness until Mar. 15, when Grillo was shocked when he saw the statue weep blood. Italian lawyers ordered the statue to be seized, but on intervention by Pope John Paul II, was released on June 11.

keypoint 112 Archbishop Tarcisio Bertone was named Secretary of the Congregation for the Doctrine of the Faith on June 13, 1995. June 17: the statue of Civitavecchia is placed in the parish church for public veneration of the faithful, where it remains to this day. The invocation "Queen of families" is added to the litany of the Blessed Virgin.

keypoint 113 Beginning July 2, 1995, a series of apparitions began to happen of Jesus, Mary and the angels in Civitavecchia, consisting of different messages including 5 v important ones: 1. Italy is in grave danger, and in "Rome, darkness is descending more and more on the Rock that my Son Jesus left you on which to build up..." 2. Our Blessed Mother warned, "Children, the Church has entered the period of great trial, and in many of you the faith will become unstable;" with several warnings of a fierce attack to destroy the family, as a strategy to destroy the Church. 3. The importance of praying the Rosary as a "powerful weapon to defeat Satan." 4. "The way of truth is in the Church of God. The truth comes from God. Do not fear man..." 5. "Consecrate yourselves all to me, to my Immaculate Heart, and I will protect your Nation under my mantle now full of graces. Listen to me, please, I beg you! I am your Heavenly Mother, I beg you: do not make me weep again seeing so many of my children die for your faults by not accepting me and allowing Satan to act." For the next 15 years, a dishonest media campaign follows against Civitavecchia, including the taking of blood samples but in such low quantities, DNA was inconclusive other than it was real blood. Cardinal Mario Luigi Ciappi, papal adviser to five popes, in a 1995 personal communication to Professor Baumgartner in Salsburg, Austria, reveals, "In the Third Secret, it is foretold, among other things, that the great apostasy in the Church will begin at the top."

keypoint 114 At the 3rd annual "Our Lady of Fatima 2000 International Conference on World Peace" (1996) Archbishop Emmanuel Milingo made allegations that Satanic rituals were performed within the Vatican. Rev. Malachi Martin was in attendance and added, "Anybody who is acquainted with the state of affairs in the Vatican in the last 35 years is well aware that the Prince of Darkness has had, and still has, his surrogates in the court of St. Peter in Rome."

keypoint 115 Father Malachi Martin, who had actually read the Third Secret and was part of the Vatican II Advisory Council, tells on American radio show *Coast To Coast AM* hosted by Art Bell, Apr. 4, 1997, the chastisement of the 3rd Secret of Fatima involves "several."

keypoint 116 American company AT&T is allowed to export super advanced fiber-optics to Chinese firm Galaxy New Technology and it became part of Chinese air defense systems that can combat air attacks, a capability they did not possess in 1991. At start of decade, Chinese

air missile technology was unguided and had no state of the art ballistic missiles.

keypoint 117 Rev. Malachi Martin candidly states on *Coast To Coast AM* July 14, 1998, the warnings and messages of Garabandal are a repetition of the Third Secret in brief. Intel Pentium II silicon-crystal-wafer-like-gallium chip unveiled, equivalent to 7.5 million transistors.

keypoint 118 In *Inside the Vatican* issue, former Philippine ambassador to the Vatican, Howard Dee, categorically stated in an interview that Bishop Ito was certain Akita was an extension of Fatima, and that “Cardinal Ratzinger personally confirmed to me that these two messages, of Fatima and Akita, are essentially the same.” Reading Univ. Professor Kevin Warwick is the first human to receive a microchip implant linking nervous system to a computer Aug. of 1998.

keypoint 119 Nine former members of the *Legionaries of Christ*, a misnomer if there ever was one, filed a canonical suit in 1998 with the Congregation for the Doctrine of the Faith against the founder Marcial Maciel Degollado for sexual abuse; the Legionaries are believed to have conducted many things like drug abuse, fathering children out of wedlock and child abuse. Sec. of State Cardinal Angelo Sodano (*opposite 123*), powerful Secretary from 1991 to 2006, blocked all canonical proceedings against Maciel, his nephew. Maciel was in 2010 denounced by Pope Benedict as a “false prophet.” Archbishop Carlo Martino publicly praises a new International Criminal Court; within 2 years issues that priests can be arrested for withholding evidence in confessionals, under the “crimes against humanity” clauses of the UN.

keypoint 120 Columbine High School massacre, April 20, 1999.

keypoint 121 In reference to the appearance of the 3rd A/C, Nostradamus announced his arrival will be “preceded by an eclipse of the Sun more obscure and tenebrose than has ever been seen since the creation of the world” except the eclipse during the era of Our Lord Jesus Christ, regarding his death and passion. This big eclipse appeared Aug. 11, 1999.

keypoint 122 Dec. 31, 1999: The U.S. flag is lowered at the Panama Canal for the last time. Control of Rodman Naval Base, a U.S.-built, deep-draft port facility capable of handling, supplying, refueling, and repairing just about any warship on the Panama Canal, and control of ports at both ends of the Panama Canal changes to Hutchison Whampoa Ltd, owned by billionaire Dr. Li Ka-shing, connected to China Telecom, and CITIC [China International Trust and Investment Corporation], CITIC at the time had global assets of \$21 billion, run by Wang Jun, People’s Republic main arms dealer to Communist regimes.

keypoint 123 For 15 years, the world sees the rise of two diametrically opposed polar factions regarding Fatima, namely one concerns the career of Rev. Nicholas Gruner and his devotion to Fatima; the other is a perpetuation by men of high-rank within the Vatican who despise him. Intel Pentium VI chip with an equivalent of 42 million transistors debuts in 2000.

keypoint 124 Body of Pope John XXIII is exhumed in 2000 to be declared blessed, part of the progression to sainthood. Then his body is bathed in solutions of various mixes including formalin, alcohol, penol, camphor, nitrobenzene turpentine, benzoic acid and is embalmed. His face and hands are covered with wax. He is the only pope specially mummified. He is not reburied but put on display for pilgrims in a St. Peter glass enclosure.

keypoint 125 Oct. 8, 2000: The Pope did an Act of Entrustment with 1500 bishops; 2000 was also the year the 3rd Secret was released on June 26. (Cardinal Ratzinger's portion of the Fatima commentary stated that he and Monsignor Bertone were following the "interpretations" of Cardinal Sodano, including the part of the Third Secret which in the commentary related that the Third Secret now belongs to the past.) I was at home and watched a special 2 ½ hour May ceremony on CNN telecast from Fatima. During the service, he issued that people are at one of the most dramatic moments in all of human history because "of the fulfillment of a divine plan." Cardinal Sodano stated the vision of Fatima concerns "war by atheistic systems against the Church and Christians." He said the text contains a prophetic vision—the 62-line text I call the vision module. Sodano said that the Pope had directed him to make this announcement. He alluded to the assassination attempt of the Pope (in 1981) as part of the third part of the Secret, but gave no details. The details were not disclosed until June 26, 2000. It had all been originally written during the Second World War. Franciscan order had only 60 new seminarians in year 2000; compare that to 2,251 in year 1965.

keypoint 126 Nov. 30, 2000, *Inside the Vatican* magazine reveals that a Cardinal (Cardinal Tomko), described as "one of the Pope's closest advisors", admitted that the Pope had been counseled *not to make mention of Russia* in any consecration ceremony because it would offend the Russian Orthodox.

keypoint 127 Dance of the Night Lights in the sky circa Mar. 30, 2001. The sky was lit aglow in heavenly fire, a year after *The Catholic Times* of London declared Vatican II has successfully spread the majestic branches of Catholicism. Sacramento, California March 30
below.

keypoint 128 Sept. 2001 final preparations by terrorists include using the internet in Public libraries for free. Sept. 11, 2001: terrorist attack upon the United States people. Lit by the candles of the King of Terror, the bearded commander bin Laden, a terrible force of Lucifer is unleashed on earth, and the bodies of over 2000 Americans are taken to the grave. Two GOES satellites registered a gigantic magnetic field spike of the Earth, only 15 mins after the first Twin Tower was hit, a possible link between our magnetic field and the collective human emotion response? 2001 also had a double peak for the Solar Max.

keypoint 129 Former Philippine ambassador to the Vatican Howard Dee recollected to the world what Cardinal Ratzinger told him: the message of Akita is essentially the same as Fatima, related in *Catholic World News*, Oct. 11, 2001 issue.

keypoint 130 Dec. 20, 2001: The Vatican Information Service (VIS) released publicly that Sister Lucia had meditated upon the June 26, 2000 booklet of the 3rd Secret and via an interview of Nov. 17 in the presence of Rev. Luis Kondor, Sister Lucia had declared the acceptance of the '84 consecration, while the Carmelite community "rejects the forms" of Fr Gruner—as to which forms the interview is describing about, the VIS never discloses nor does it explain—why after over 70 years of statements that the consecration of Russia was requested by Our Lady—exclaiming that it is unneeded; a contradiction of her prior testimony.

keypoint 131 Jan. 9, 2002: English edition, *L'Osservatore* in an article-interview of 463 words of Sister Lucia back on Nov. 17, 2001 [conducted by Msgr Bertone (became Cardinal in 2003)] stated the interview interprets the 3rd Secret made in the Jubilee Yr (2000) was all revealed, specifically with this line, "Everything has been published...." Question: was everything that the Pope had to read published? or was everything of one part published? or was everything of only the part that was publicly revealed published? No transcript of the interview has been given to the public up to this day.

keypoint 132 In 2002, the Blessed Mother appeared to Fr Wingate telling him it is too late to turn back or run out. Events of punishment to come can only be lessened. And, it can no longer be prevented. Intel Itanium 2 debuts, chip equivalent to 220 million transistors.

keypoint 133 In 2003, Rev. Wingate goes public with first appearance on *Coast To Coast AM* (C-2-C) Jan. 3, 2003. Two months later, the air-naval-ground invasion of Iraq; an allied force of 214,000 American, 45,000 British, 2,000 Australians, 2,400 Polish and several other nations—opposite them are 13 Iraqi infantry divisions and 10 armored/mechanized divisions.

keypoint 135 Awesome sandstorm over 700 miles-wide engulfs Iraq on Mar. 23, 2003. "I was scared," said Sgt. Julie Moretta, "It was almost like the world was coming to an end. The sand was actually vertically, all the way up to 12-17,000 feet up in the air."

keypoint 136 Mar. 27, 2003: Largest airborne operation since the Second World War, 1000 paratroopers of the U.S. 173rd Airborne Brigade parachute into no. Iraq to aid the 10th Special Forces Group near Bashur Airfield; thousands of Kurdish civilians are liberated. The United Nations Human Rights Commission (UNHRC) meet in Geneva March 17-April 25, 2003, to add “sexual orientation” to its UNHRC’s discrimination list; activists called for a “showdown with religion.” Panel members called Roman Catholics and evangelical Protestants as the main opponents.

keypoint 137 Apr. 9, 2003: Baghdad falls. Seven thousand six hundred and forty-five miles away, FBI’s most senior Chinese counterintelligence agents, 30 yr-veteran James J. Smith is arrested for theft of classified U.S. documents that allowed access of such documents to a Chinese double agent, Katrina Leung, MSS [Ministry of Chinese State Security] aka Chen Wen Ling (*right, without glasses*), who was nabbing classified materials from the briefcase of the FBI. She was originally hired in the 1980s—if you can believe it—to spy for the U.S., but, in reality she was a double agent. She made suckers of the FBI—involving nuclear and advanced technology secrets; later released because of a court blunder.

keypoint 138 Mid-April: Amazing story involving the discovery of over 300 black vests. These were explosive-filled time-bombs that fitted over a person just like a vest. Covered with clothes from a distance its wearer could not be identifiable until it was too late! They are an invention not even the fanatic of fanatics—the SS of Nazi Germany—had used. On a tip from local Iraqi civilians, U.S. Marines and an MSNBC crew were led to a school deep inside Baghdad. Row upon row of vests, neatly aligned, were on a coathanger, wrapped like clean plastic laundry bags, ready to be shipped out. Upon close inspection, the black vests had a lining of wide sheaths of yellow-brown explosives with beads of ball-bearings. Muslim looters empty Iraq’s National Museum of Antiquities. On ABC *Nightline* with Ted Koppel, USAID Administrator Andrew Nastios states it will cost no more than \$1.7 billion for the American taxpayer for the rebuilding of Iraq. Before end of April, TF 20 captures Iraqi scientists Dr. Germ (Rihab Taha), Texas-trained microbiologist Mrs. Anthrax (Huda Salih) and Mohammed Abbas.

keypoint 139 Europe heatwave of 2003 kills over 70,000 people in summer.

keypoint 140 Sept. 2003 Mel Gibson and wife meet Sister Lucia in Coimbra. He asks Our Lady for help in his new film.

keypoint 141 October 2003: At a religious conference held in Fatima, a Rev. Jacques Dupuis declared that the religion of the future should be a general convergence of all religions into one universal Christ that satisfies all and that no one should even refer other religions as non-Christian. And that the Catholic Church should be part of a being togetherness to harness the energy of world religious pluralism.

keypoint 142 Aug. 2003: City of Balch Springs, suburb of Dallas: senior citizens at the Se-

nior Center were told they could no longer conduct any mealtime prayers, any short devotional, Gospel music, or allow a retired pastor to say any “religious message.” The brave senior citizens appealed to the city. Balch Springs city officials fired the Center’s events planner and bus driver, cutting off the old people’s access to educational outings and transportation to fill their PXs. They fought back. The City cut all transportation to any funeral of these seniors’ friends. But, they filed a lawsuit in Sept. 2003 with the help of an Alliance Defense Fund attorney, and within 2 months the City allowed the music back, but not the preaching. WW II vet Barney Clark was among those not satisfied, calling it getting a bone to shut up like a dog. The U.S. Justice Dept. opened a case against the city Nov. 2003; based upon Title III of the Civil Rights Act of 1964 and the Free Speech and Equal Protection Clauses of the Constitution, the City Council voted Dec. 2003 to lift all bans on religious activities at the center and to adopt a policy that permitted speakers to speak without regard to content or viewpoint. (Jan. of 2004.)

keypoint 144 Nov. 4, 2003: A sunspot eruption with the equivalence of 5,000 suns, more powerful than every nuclear device being detonated at once. Luckily, the huge ejecta of plasma missed Earth. It was an x-45.

keypoint 145 The International Institute for Strategic Studies in London issued an annual report that estimated al-Qaida had a worldwide membership of about 18,000 operatives in 90 countries.
