No cruise missile, which is great against jets and helicopter gunships, can theoretically be used well against Russian mobile launchers. However, Javelins and hand-held RPG types r effective, which require someone to get close to the enemy. What is showing to be effective are drones which are guided in on a target. Effective now in open country. However, once the fighting enters apartment and tall edifice environments, that answer is to be determined. This reminds me of the early months up to April 1942 albeit in jungles-the battles of Bataan where US and Filipino troops held on bravely, and at first even held the Japanese in check in their advance. Yes, despite what you may have read about the Fall of the Philippines, General Homma and his 150,000 plus troops were facing horrid casualties in particular by the Philippine Scouts and regulars before all of the Philippines fell—and MacArthur escaped.

Hollywood Where Are You?

You got people in need. Once upon a time, you had production power, as Jimmy Stewart, Tyrone Power, Bette Davis of WW II fame. Where are our directors and the muscle of the Hollywood of today? I wonder when Hollywood will have the brains and guts to do a Hollywood movie on this invasion and the occupation?

Remember David Hasselhoff of *Knight Rider*? He sang a song in the period when the Berlin Wall fell—it is now 33 not 20 yrs— called Looking For Freedom. (Courtesy of Andre Rieu). Those at our famed Broadway, you are needed as much as Hollywood. FREEDOM is at stake, or are you waiting for more to die and see freedom rot? Don't linger by the sidewalk. You have astounding muscle, it is high time to rise. We do not need to go to war, this is a unique time in history. Come on, man make some history

...Remember the new call word below? Nice, but what is needed: more help and muscle.

Systemic shocking news from Mariupol: Russian warships fire broadsides plus Russia has committed thermobaric rockets into the entrapped city.

Mar 22, 2022: The best opportunity for world peace is now: if this Fri. a papal declaration of a ceremony called a consecration occurs as requested. 105 years ago, Our Lady of Fatima made a promise to humanity, that Heaven, meaning God, would grant this planet an era of world peace. She never said only for Holy Joe Catholics, or old people of faith; she meant everybody of the whole human race. The ball started rolling early March when several Ukrainian bishops begged the Pope for a consecration of Russia, as our Lady requested. [Previous Popes in 1942, 1952, 1964, 1981, 1984, 2000 and 2013 had done a consecration each his own way, but never following her request to the exact letter. Hence the savagery of war continues.] Be you Christian or not, would it not be GREAT if the terrible war in Ukraine would stop? 80 years ago, and prior to that, the Blessed Lady forewarned about a future seeing an annihilation of nations. Every time the Blessed Lady has spoken, she uses words that are exact and has never minced words. The balance of war lies on the tipping scales of accuracy. **Mar. 23** Irpin and Makariv to the W. have been retaken by Ukraine troops. France and Italy have delivered the latest version of "Milan" to Ukraine fighters. Antitank Milan handheld minirocket launchers are portable, easily stationed on a tripod, built by MBDA of France, and using an infrared lamp pinpoints a target for close combat. The mini-rockets cannot be affected by radio jamming, flares or aluminum, and is more powerful than standard bazookas or rpg's as it is claimed can penetrate 1,000 mm armor at 3000 m (3,280 yards). The newest version is said can have a range of 3 km. U.S. Senate called for revival of Lend-Lease, and Senators quickly rallied passing the WW II-era program; it now goes to the House of Representatives. (Under that Lend-Lease program, the following WW II stats should not be longlost: 750 tanks, 800 aircraft and 1,400 vehicles had been delivered from America under Lend-Lease, not to those beleaguered fighting on Bataan, but to the isolated, undersupplied troops in Russia from midsummer of 1941-early '42—along with 100,000 tons of supplies that never reached MacArthur and Wainwright—that is exactly 8 decades ago, 1942-2022 that helped a Soviet Union successfully defend their homeland, and in 2022, how are the Russians repaying us? The above statistics were deemed extremely vital when the Soviet Union was against the wall with limited resources in the period mid-1941 to early 1942 as stated in this author's recounting of WW II! They are all researched facts as the fighting went on simultaneously in the Philippines and Russia, eighty years ago to the date.) UN General Assembly suspends Russian participation from UN Human Rights Council. German Foreign Intelligence stated last night they have intercepted recent radio communications catching Russian officers

talking about shooting civilians.

Apr. 15: Good Friday: it is confirmed, the Russian cruiser Moskva, 3rd largest vessel and flagship, after being hit by Ukrainian Neptune missiles Apr 13, sinks and rests at the bottom of the Black Sea; it possessed 16 anti-missile firing capabilities, each w/1 ton of high explosives (8 to a side) none encased behind protective heavy steel; death of captain unconfirmed. Day 55, a day after Easter, Gen. Dvornikov increases air strikes on central and NW Ukraine as a military diversion to capturing Mariupol. Western journalists largely fall for it as 315 target-sites all over an overcast and cloudy Ukraine hit by air missiles and long-range artillery. Beautiful, art-city of Lviv, which had largely escaped attacks until now, as snow lightly falls, is struck by missiles, 7 killed, one is a child. Mykolaiv, near the port city of Odesa, did not escape, hit under Dvornikov's new southern attack campaign. 4.98 million people have been forced to flee to neighboring nations to seek refuge since the start of the war, according to the UN. The last of Ukraine's fighters in Mariupol are cornered in a tiny part of a large steel factory complex with underground tunnels, with prospects of being resupplied zero, ammunition virtually gone.

April 18: The city of Mariupol is so shattered, Dmytro Kuleba, Foreign Minister of Ukraine, said, "The city doesn't exist anymore". Over 900 cadavers counted in n. suburbs of Kyiv. Estimated number of people killed in Mariupol: 2,000-5,000.

Also, a lot were stuck at Lviv, including medical equipment. Something new under the sun, Apr. 19, T-minus 19 days before May 9th, Russian foreign minister Lavrov provides a hint of specifics that his country will not use nuclear weapons, and that Moscow would only use "conventional" munitions. He also, reconfirmed the establishment of separate Donetsk and Luhansk republics. The Donbas possesses rich coal reserves with wonderful coal mining. The dirty trick is this, talk about new republics while at the same time create a separate Southern zone to the Russian-annexed Crimean peninsula, capture the city of Kherson, important as it is key to the freshwaters canals to Crimea, and destroy Ukraine's best armed forces, which are fighting in the S. and E. Crush and eliminate Ukraine's best armed forces and elimination of the trading hubs of Mariupol and Odesa for Ukraine—those were strategic keys of the Russian "special operation". Simple ABC.
